PROFESSIONAL SUMMARY

Frontend developer with growing expertise in backend engineering and system design. Passionate about debugging, problem-solving, and building scalable full-stack applications using Next.js, FastAPI, and PostgreSQL. Enjoys understanding how systems work internally rather than only implementing features..

TECHNICAL SKILLS

React.js	Next.js
javascript	typescript
tailwind css	bootstrap css
HTML	CSS
React Query	context API
Git/Github	Rest API
Responsive Design	SSR, SSG, ISR, CSR
Python	FastAPI
SQLite	SQLAlchemy
Authentication / Authorization	PostgreSQL

KEY PROJECT

Cafe menu

- Designed and implemented token-based **authentication** and protected API routes using **FastAPI**.
- Built a full-stack café menu platform with **Next.js** and high **SEO** frontend and **FastAPI** backend.
- Managed database models and relationships using **SQLAlchemy** and **SQLite**.
- Improved UI consistency and state management across reusable React components.

Platform Redesign Project, *Redesigned 13+ pages for a freelance marketplace platform.*

- Collaborated with product manager to improve UI consistency and user flow.
- Tech stack: NextJS, typescript, bootstrap

Full-Stack Authentication System,

Built a secure login/register system with client-side session management.

- Tech stack: NextJs, typescript, context API, reactQuery, Python, FastAPI, SQLite

E-Commerce UI Prototype, *Developed a responsive shop interface with product filtering and cart simulation.*

- Tech stack: React, React Router, CSS Modules

PROFESSIONAL EXPERIENCE

Frontend Developer, *freelance*

2024 – Present
remote

- Developed responsive websites for 5+ small businesses using React.js and Next.js.
- Redesigned a 13-page platform for a freelance marketplace, improving UI consistency and user engagement (mention this!).
- Collaborated directly with clients to gather requirements, design UI, and ensure timely delivery.
- Implemented modern practices: component reusability, state management with React Query, and Git workflows.

CORE STRENGTHS

- Backend-focused **problem solving**
- **Authentication** & API **security**
- **Debugging** complex UI/state issues
- Full-stack application architecture
- **Responsive** and **scalable** frontend systems

Education

Bachelor's degree in Computer Engineering

SOFT SKILLS

Problem-Solving

- Debugged complex UI issues using browser tools and systematic testing.

Communication

- Effectively collaborated with clients remotely to align on project goals.

Self-Learning

- Quickly learned Next.js and TypeScript through documentation and project-based practice.
